Requests that the following work to be registered in the Archivio Giuseppe Spagnulo (the Archive):

Title:

Year:

Material:

Dimensions:

The undersigned declares to be fully aware of the following conditions and accepts them in full.

Given that registration of the work in the Archive is subsequent to a request by the interested party and at the discretion Archivio Giuseppe Spagnulo, upon proper verification and the issuance of an opinion attributing the work to the Artist (Attribution Certificate); barring exceptions, the issuing of the opinion depends upon viewing the original work, this examination shall take place according to the methods indicated below and the opinion is issued according to the current state of the artwork and the technical knowledge available.

1. Two weeks prior to the assessment, the Archive must receive the complete preliminary technical sheet, photographic documentation, and the attachments contained therein. The applicant undertakes to provide all information in their possession and only demonstrably true information, they shall be solely responsible for any inaccurate or incomplete information they provide.
2. The work undergoing examination must be delivered to the address provided by the Archive within 24 hours prior to the date scheduled for the Assessment Committee, along with the present properly signed Consulting Agreement. Transportation of the work, without a frame and/or display case (unless made by the Artist himself), to the address provided by the Archive shall be charged to the applicant and solely the applicant's responsibility. Failure to deliver according to the aforementioned terms shall result in the waiver of the request for an opinion. The work can be picked up in the following 24 hours. In the case of works that are difficult to move, the Archive will determine how to proceed with the assessment of the work directly with the applicant.

3. Contemporaneous to filling a request, the applicant shall provide the Archive with the receipt of the completed bank transfer (according to the fees indicated in the Regulations).
4. The applicant is required to stipulate suitable insurance to cover the work against the risk of theft, loss, damage, and/or destruction of the work itself for the entire duration of transportation and time in which it is under the custody of the Archive.
5. Should a favorable opinion be issued, namely attribution of the work to the Artist, the applicant will be provided with a certificate and the work shall be registered in the Archive's database. The Archive reserves the right to choose how the work is presented in the Catalogue Raisonné, along with all rights to publish the work and possibly reevaluate the opinions expressed should new scientific knowledge emerge.
6. Should a negative opinion be issued, namely refusal to register the work in the Catalogue, the documentation shall not be returned. The applicant hereby declares to accept the response, in writing without further specifications, and irrevocably waives from now on all claims and/or actions against the Archive and its consultants concerning the refusal to issue a certificate of attribution. The undersigned also guarantees for their assignees and/or assignees of the non-archived work, indemnifying the Archive from claims by third parties, to whom they also undertake to communicate the negative outcome.
7. The Archive reserves the right, should any undeclared circumstances emerge concerning the provenance of the work, to undertake any communication deemed necessary to third parties or to the competent authorities, without being subject to any obligation to the contrary on the part of the applicant.
8. The Archive assumes no obligation to issue opinions of any kind: should the Archive refuse to examine the work of its own initiative, it will refund the fees paid; moreover, it reserves the right to suspend judgement at its discretion when there are insufficient determining elements: in this case the work will remain a "work under examination" in the database and Catalogue.
9. In the event that the Archive should be held responsible for acts or facts of any kind arising from its relationship with the applicant, such liability cannot in any way exceed the amount paid by the applicant for the assessment fee.
10. The certification document issued by the Archive will be written in Italian. Any controversy that might arise in relation to the interpretation and/or execution of this Agreement shall be under the exclusive jurisdiction of the Court of Milan and Italian law will be applicable.
